外国人研究者招へいのためのポスター送付について

本会各種事業につきましては、平素よりご理解、ご協力を賜わりまして厚くお礼申上げます。
この度、本会で行っています、外国人研究者招へい事業の周知のため、別添のポスターを作成いたしましたので、貴機関におきまして、掲示・配布等による周知にご協力をいただければ幸いです。

記

- 1 本会の外国人研究者招へい事業は、ポスドク(既に博士の学位を取得している研究者)を主な対象としておりますが、さらに若手(大学院相当)の研究者への周知もお願いしたく、大学等機関においては、外国人留学生関係部署にも掲示のご協力をお願いいたします。
- 2 平成25年度事業の紹介ポスターのため、全ての当該募集等が終了する平成25年11月末には掲示を終了していただきますよう、あわせてお願ひいたします。

Dear Colleagues,

I am pleased to send you posters for advertising JSPS's FY2013 Fellowships for Research in Japan. May I ask you to make use of them to spread the word to eligible individuals about this opportunity to do cooperative research in Japan.

In displaying the posters, may I ask you to keep the following points in mind.

1. These fellowship programs are open to postdocs and in some cases to young researchers (e.g., postgraduate students). Please display the posters in universities and other institutions where such researchers will be likely to see them. Please also display them in the foreign student offices of such institutions.
2. As the posters are to introduce FY2013 Fellowships, we ask that you take them down at the end of November 2013 when the recruitment period ends.

As always, we very much appreciate your cooperation in helping us find excellent candidates for our fellowship programs.

Sincerely yours,

Overseas Fellowship Division
International Program Department

iPS Induced Pluripotent Stem Cell

Induced pluripotent stem cells (iPS cells) are able to self-renew to produce more cells, which in turn can differentiate into specialized cell types of various tissues and organs. iPS cells can be artificially derived from somatic cells such as human skin by inducing a small number of genes. Dr. Shinya Yamanaka, Director of the Center for iPS Cell Research and Application (CIRCA), Kyoto University, and 2012 Nobel laureate in Physiology or Medicine, first produced iPS cells in 2006 from mouse cells, then in 2007 from human cells in research and have potential therapeutic applications in regenerative medicine without the controversial use of embryos. In the past, Dr. Yamanaka gained research experience under a Research Fellowship for young scientists awarded by the Japan Society for the Promotion of Science (JSPS) and also received the 2006 JSPS PRIZE.
